

# Internship Lighting Design

Sommersemester 2026, Wintersemester 2026/27

## About Us

We are an international studio for Architectural Lighting Design located in the heart of Dresden's Neustadt district. Combining architecture, technology, and art, we develop creative and innovative lighting concepts.

## Your Tasks

Active participation within our planning team

Contribution to real, ongoing projects

Researching, drafting, visualizing, model making, documenting, and presenting

## What We Offer

Practical experience in an established lighting design studio with over 20 years of project expertise

Involvement in high-quality and forward-thinking projects

A qualified reference letter and the possibility of continued employment based on excellent performance

## Your Profile

Reliable, independent working style

Strong interest in light, architecture, and international design trends

Enthusiasm for lighting and architecture, combined with a positive, open attitude

## Application

Please send your complete application documents to:

E-mail: [office@ruairiobrien.de](mailto:office@ruairiobrien.de)

We look forward to receiving your application!
